Summary

2025 BSc graduate with hands-on experience in Java, Spring Boot, React Native, and PostgreSQL.

Skilled in REST APIs, CRUD operations, SQL queries, and full-stack mobile application development using React Native and Tailwind CSS.

Calm and solution-focused team player, ready to contribute to IT Service Management and Data Analytics projects at Cognizant.

Education

KG College of Arts and Science

Bsc Computer Science

Coimbatore • 2022 - 2025

SRSI Matriculation Hr Sec School

HSC

Coimbatore • 2020 - 2022

SRSI Matriculation Hr Sec School

SSLC

Coimbatore • 2019 - 2020

Projects

Personal Expense Tracker

2026

Tools:Java, Spring Boot, React Native, Tailwind CSS, PostgreSQL

- Built a cross-platform mobile app using Spring Boot backend and React Native frontend connected to PostgreSQL database
- Implemented **REST APIs** in Spring Boot for complete **CRUD operations** on expenses and income
- Developed intuitive mobile UI with React Native and Tailwind CSS for transaction entry, filtering, and spending visualization

Inventory database System

2025

Tools: PostgreSQL, pgAdmin, psql

- Built a complete Inventory Database System using **PostgreSQL** with a normalized 3NF schema consisting of 11 tables and proper table relationships
- Implemented **CRUD operations** and stored procedures for managing products, stock transactions, purchases, and sales
- Created test data, performed manual testing, and conducted root cause analysis to ensure data accuracy and reliability

Coffee landing page

2025

- Developed a responsive single-page website for a cozy coffee shop concept
- Built with **React** (functional components + hooks) for modular and reusable UI structure
- Styled using **Tailwind CSS** (utility-first approach) for fast, consistent, and mobile-first design
